In re application of: **Katsuhiko OKADA et al.**

Serial Number: **Not Yet Assigned**  
(PCT/JP01/02635)

Filed: **November 27, 2001**

For: **PRODUCTION METHOD FOR POWDER COATING, POWDER COATING,  
AND PAINT FILM FORMATION METHOD**

PRELIMINARY AMENDMENT

Commissioner for Patents  
Washington, D.C. 20231

November 27, 2001

Sir:

Prior to the calculation of the filing fees of the above application, please amend the application as follows:

IN THE SPECIFICATION:

Please replace the paragraph beginning at page 3, line 4, with the following rewritten paragraph:

Methods of removing solvent from a powder coating raw materials solution by using a supercritical fluid have also been proposed (Japanese Unexamined Patent Application, First Publication No. Hei 8-113652 and Published Japanese Translation No. Hei 8-503721 of PCT International Publication), although in these methods, operations need to be performed under high pressure conditions, and so a problem arises in that the equipment required for production is extremely expensive, making the methods inappropriate for industrial production.
